

# Geoffrey Bernicot

## Fullstack Developer

### About Me

I am looking for a new experience and new challenges. I can quickly adapt to a new work environment and new technologies. Thanks to my different experiences, I have a complete understanding of how applications are built. I am therefore able to build full-stack applications. I am ready to work with a team/company that has a long term vision and that proposes stimulating projects.

### Work Experience

#### Full Stack Developer (Self-employed)

I-DEV OÜ - Tallinn, Estonia

Aug 2021 - Present (1 year, 7 months)

As a Full Stack Developer, I provide maintenance and evolution of my clients' applications or websites.

- WordPress : Plugin Development, Speed Optimizations with NitroPack

- Full custom member space development

- Full automatized crypto payment workflow

Technologies that I use :

- PHP, MySQL, JavaScript, jQuery, Bootstrap, WordPress

Some of my clients :

- <https://www.sekai-esthetique.com>

- <https://leader-referencement.com>

#### Web3/Blockchain Developer (Self-employed)

Independence DEV

Jan 2022 - Present (1 year, 2 months)

In early 2022, I discovered Decentralized Finance. Since then, I've been learning about it every day.

- Launched an ERC20 token and a farming dApp on BNB Smart Chain (Raised \$180k during the ICO)

- No-Code dApp for ERC 721 NFT collection creation

(Check Mint IT in projects section)

- Create Next.js website about Web3 : [independence-dev.com](https://independence-dev.com)

- Create content on YouTube : @IndependenceDEV

What I learned : Smart contract, Ethereum, Solidity, dApp, React.js, ethers.js, HardHat

#### Full Stack Developer and Owner (Self-employed)

GestGym - France

Sep 2018 - Aug 2022 (4 years)

During 4 years, I developed a SaaS application to help gymnastics clubs to manage their members.

- Around 300 clubs and more than 4000 users used it every day.

- I developed this application in PHP/MySQL and Joomla Framework.

- Bootstrap for a responsive app and JavaScript/jQuery for more dynamic features.

- Integration of Mailjet API to send mass emails directly through the application.

- Integration of HelloAsso API to provide a free payment solution for the clubs and their members.

- Backend : PHP, MySQL, Laravel, Docker
- CMS : Joomla, WordPress
- Blockchain : Smart contract, Solidity, HardHat, ethers.js

## Certification

2022

**Alyra**

Blockchain Developer

2015

**OpenClassrooms**

Web Integrator

Check the credentials on my LinkedIn profile

## Other

**Men's Artistic Gymnastics**

It's a big part of my life, I devoted a lot of time to this passion sport from my childhood until I was 25.

With several titles of champion of Brittany, I have participated every year in the French championship.

I was also a level 4 judge (national level).
